

Accounting for Health Care Providers

BHT PARTNERS
FORWARD THINKING ACCOUNTANTS

"We recognise the fact that running a medical clinic is very demanding and dealing with public health issues can be very stressful. Apart from providing assistance with the usual compliance issues of GST, BAS, PAYG and superannuation, we'll advise you on the most appropriate tax structure for your business."

Damian Sanelli - Partner

Over the years, the team at BHT Partners have mentored dozens of health care providers through the various stages of their business life cycle – from start up right through to sale of their medical clinic.

Thinking of Starting Your Own Medical Clinic?

There are numerous issues to consider when starting or buying into a medical clinic. As a business start-up specialist we can assist you with your branding, business structure, site selection, commercial lease, corporate brochure, marketing and even your website. We have developed a number of tools for new business owners including a comprehensive checklist of start up expenses broken down into categories including leasehold improvements, IT costs, marketing and medical equipment. These figures then automatically feed through to an integrated cash flow budget to help you identify any finance requirements. These forecasts can then tuck into your business plan.

Accounting for Health Care Providers

"We are so much more than just tax Accountants. We offer you strategies to grow your business, your profits and your wealth. Over the past decade medical practitioners have become a real niche within our accounting practice and if you're looking to get the right advice when starting, buying or developing your medical practice or clinic, call us today on (03) 9431 3000."

Jim Tyrrell - Principal
